Complaint is made of the treatment accorded a young man in the employ of Hackfeld & Co., who was arrested on Tuesday evening for riding his bicycle without a light. At the station house he was required to deposit \$10 as bail for his release. Not having the money with him he was searched as any ordinary criminal would be and locked in a cell to await his bail money which had been telephoned for. His is not the only experience of the same kind.

FIGHTING IN LUZON

Manila, Nov. 13.—Captain Hartman's troop of the First Cavalry, early this morning, surprised 400 insurgents at Buan, in Batangas province, South-western Luzon. Half the insurgents were armed with rifles. They were prepared for an attack and were in rifle pits. The cavalry attacked the insurgents on the flank, killing sixteen of them, wounding five and capturing nine rifles. The insurgents broke and ran, the cavalry pursuing them.

Two large boatloads of arms are reported to have been landed on the southern part of Batangas peninsula and taken to Durangon. Major West, stationed in that locality, is trying to find these arms.

HAS SET ITS TEETH TO WEAR OUT BOERS

London, Nov. 13.—Mr. Brodrick, the British War Secretary, speaking tonight at a banquet given in London in his honor by the City Carlton Club, declared that the Boers were hiding their tracks by murdering the Kaffirs behind them.

Lord Kitchener wired today, he continued, that the cold-blooded murder of natives had become frequent of late, and that two dead natives, their hands tied behind their backs, were found on November 10th at the bottom of a mine shaft.

Later in his speech Brodrick said Great Britain has now 42,000 Boers in custody in the centralization camps and on various islands, and that 11,000 more had been killed or wounded or had left the country on parole. He added that he believed the number of Boers now in the field was about 10,000.

"The country has set its teeth, and intends to go through the process of wearing them down," he exclaimed. "We intend to provide Lord Kitchener with fresh troops to replace the tired ones. Only today a certain colony made an offer to help."

Brodrick said he was sorry anything had happened to affect the career of Sir Redvers Blyden, and he assured the company that the death of Sir Evelyn Wood was not a bar to the work that officer had to do as commander of an army corps.

The War Secretary declared that neither Sir Evelyn Wood nor the Duke of Connaught was to be regarded as a peace General, because wherever their army corps went they also would go. He further announced that Sir Archibald Hunter would be appointed to the command of another army corps when this was formed.

Brodrick explained that four battalions and two cavalry regiments would be drawn from India for service in South Africa.

CHINESE ARE ARMING

London, Nov. 12.—Telegraphing from Hankow, November 5th, the Peking correspondent of the Times, Dr. Morrison, says: "The Yangtze valley is now peaceful, and no doubt is entertained that the court will return to Peking. Trade is very active here. The manufacture of arms and ammunition is proceeding on a great scale at all the principal Chinese arsenals. There are about 2,000 workmen in the Hankow arsenal and 2500 in the arsenal at Shanghai. Forty thousand gun stocks were recently imported, and 15,000 Mausers are now ready for distribution. Large contracts for the supply of rifles are being negotiated by the representatives of European firms."

"Work on the railway from Hankow to Canton has not yet begun. Recently Sheng, the Taotai, asked that categorical assurance should be given to the Chinese Government that this concession, which was granted to an American syndicate because the syndicate was American, should not become subject, as was reported from America, to the Belgians, who hold three-fifths of the original stock."

JAPAN STEEL WORKS PLANNED FOR KURE

Tacoma, Wash., Nov. 10.—The Japanese Navy Department is preparing to establish large steel plate works at Kure, according to advice brought tonight by the steamer Victoria. This project has been in contemplation for a number of years. It was recommended to the Diet last year, but the lower house refused to make the necessary appropriation of 6,300,000 yen.

The work will be spread over three years. High naval officers are convinced that Japan should carry out this enterprise as a matter of national protection, even though armor plate can probably be purchased cheaper in Europe or America for years to come than it can be made in Japan.

The naval department has been practicing economies in other lines and now has a large part of the required amount, with which it intends to make an immediate start on the steel plate factory. A large portion of the machinery will come from this country or Europe. It is also argued that by owning her own armor plate works Japan will be enabled to bid to good advantage on the construction of future Chinese war vessels.

Baron Masahide of Tokio has obtained from Director General Sheng of the Chinese railway a concession for the erection of important telephone lines which will connect the largest cities throughout China. He went to China to promote this enterprise two years ago and was then unsuccessful.

The preliminary arrangements now made contemplate that China shall furnish the funds and Japan the experts and material. If China is short of funds Masahide will organize a Japanese syndicate to finance the enterprise. The first line will be built between Peking, Hankow and Canton. Masahide was formerly at the head of the telephone bureau in the Japanese home department.
